After completing each workshop, you should be able to:

- 🌀 Recognize and apply the Natural Laws of the Universe in everyday life [as it relates to a particular law]
- 🌀 Create a step-by-step plan to apply the law to your life – experience real, tangible results

♥ **Law of Love (1)**

The primary law is the Law of Love. All things exist within this law and are created out of it. Love is the total and complete acceptance of what is. Love allows.

♥ **Law of Believing and Knowing (2)**

This Law states that before you can accept something as true, you must first accept the possibility that it may be true, or at least keep an open mind.

♥ **Law of Responsibility (3)**

One of the basic principles which gives meaning to our life. We cause all things that happen to us either by our conscious, deliberate actions and choices, by our subconscious needs, or by our deliberate passive inaction.

♥ **Law of Reflection (4)**

The Law of Reflection is something that we encounter every moment of our waking existence. Our physical surroundings and the things that happen to us are a reflection of our thoughts, beliefs and attitudes.

♥ **Law of Expression (5)**

All energy expresses on the physical level. Energy comes into us from the highest, least dense part of our being, the innermost Spiritual level. The energy travels outward through all of our Spiritual levels. ALL energy expresses on this level. If not in the form of some thought, feeling or action, then it expresses in the physical body as tension, anxiety, injury or dis-ease.

♥ **Law of Cause & Effect (6)**

The Law of Cause and Effect states that whatever cause we create, we will also experience the effect of it. What we do comes back to us.

♥ **Law of Abundance (7)**

The Law of Abundance says that we can have whatever we want. There is more than enough wealth in the world for everyone to have all they desire ten times over.

♥ **Law of Expectation (8)**

The Law of Expectation explains why the optimist and the pessimist are both correct. It states that we get what we expect. If we expect to be lucky, then we will be. If we expect one obstacle after another, we will always find them.

♥ **Law of Giving & Receiving (9)**

A difficult Law for many of us to accept is the Law of Giving and Receiving, which merely states that for every giver there is a receiver. We are taught that it is divine to give and that we should not expect anything in return.

♥ **Law of Creativity (10)**

Creativity is at the very core of each soul, each person. You are driven to create experience. As you create, you discover more of who you are through observing your creation.

There are Four Principles of Creation, they are the governing principles of all life:

- To live a life filled with love,
- to experience health and well-being,
- abundance,
- and to create freely
